Pink
Lady

Gaura lindheimeri "Pink Lady" USPP#17494P2

Flowers: Have the soft effect of pink lipstick blotted on white tissue. Instead of the normally long, arching wands of floral display, this tidy plant keeps its blooms just above the foliage for a long summer season of color

Mature Size: 65cm x 80cm (24'-30" x 30" wide). Compact, tight, front of the border beauty.

A great garden or container complement for Gaura "Crimson Butterflies". Prefers full sun and well-drained soil. Drought tolerant once established.

Discovered by the breeder at Siskiyou Rare Plant Nursery and introduced in 2003.

Color: pink

Blooming Season: summer

Mature Height: .5 metre

Zone: 5-10
